

Exceptional value. Convenience. Peace of mind.

Maintenance Plan™

Simplify routine maintenance.

Completing routine maintenance is important to help keep your Kia in optimal condition, which helps maintain performance. One of the best ways to maintain your Kia and simplify vehicle ownership is to purchase prepaid maintenance with a Kia Maintenance Plan™.

Peace of mind standard.

A Kia Maintenance Plan is based on Kia factory-recommended maintenance services, which can be performed by any U.S. Kia dealership. Services are performed by Kia factory-trained technicians, using Genuine Kia Parts, and feature full synthetic oil on all plans.¹ Should you decide to sell your Kia, the Kia Maintenance Plan is transferable to the new owner.

Making the right choice to purchase a Kia Maintenance Plan locks in service pricing, which means you will never pay more if labor and parts prices increase during the duration of the plan.

What's covered.

Kia Maintenance Plan™ (eligible new vehicles only)

Includes Kia factory-recommended maintenance services, such as:¹

Full synthetic oil and filter replacement

Brake fluid replacement

Tire rotation

Spark plug replacement

Cabin air filter replacement

High voltage coolant (EV only)

Engine air filter replacement

Comprehensive multipoint inspection

Kia Maintenance Plan™ Select Services

For eligible vehicles already in service, Kia also has you covered with Kia Maintenance Plan Select Services plans which include certain routine maintenance items.
