(Some screens simulated)

### DASHBOARD > Vehicle Notifications

## DASHBOARD > Set Climate – Presets and Custom Settings

(Some screens simulated)

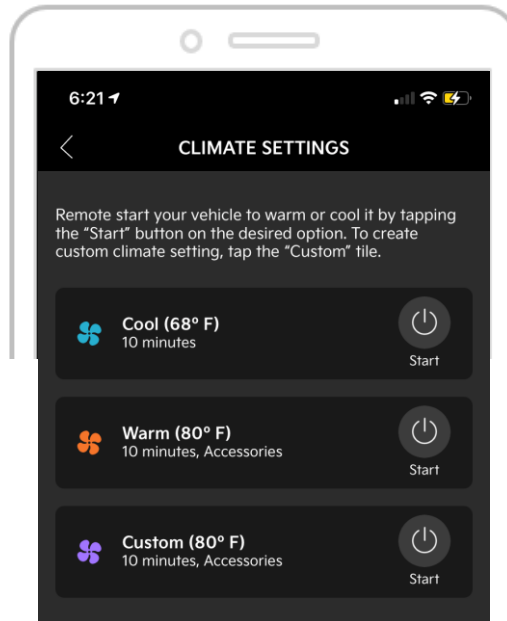

1

Tap Climate

2

Tap Start to start vehicle with the Cool or Warm preset settings. The setting you choose will be the climate setting the next time you remote start the vehicle from the Dashboard. Tap Start on the Custom tile to set a custom climate

3

Customize your climate settings, then tap Save and Start Engine

Note: If you choose Custom climate settings, this will be the climate the next time you remote start the vehicle from the Dashboard

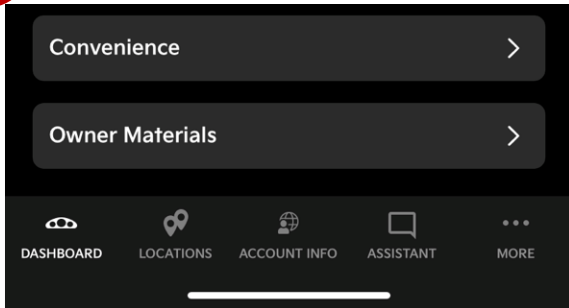

### Custom Menu

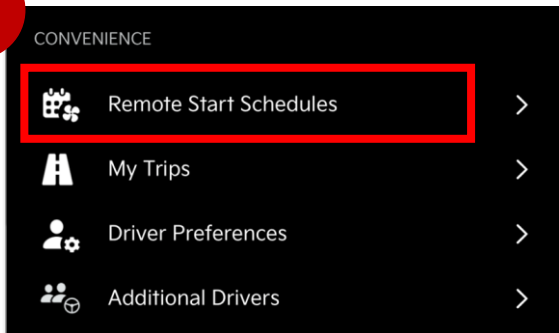

### DASHBOARD > Convenience > Remote Start/Climate Schedules

#### 1 Convenience

Tap to set a remote start schedule with custom climate settings

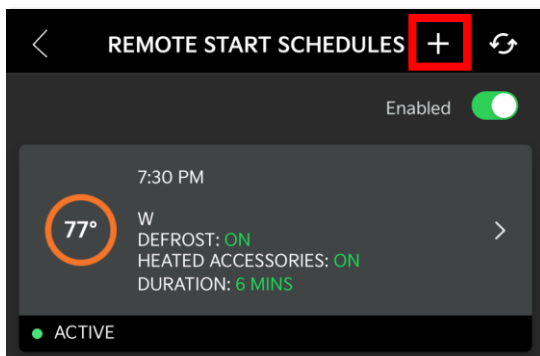

#### 2

Tap “+” to add new climate schedule.

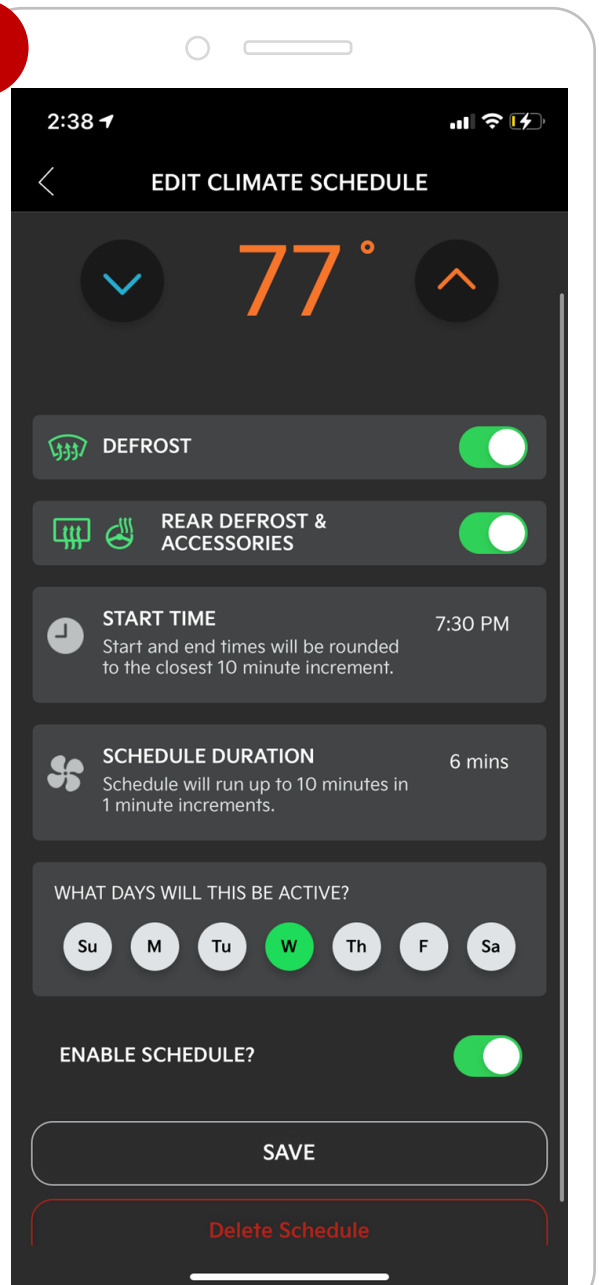

Tap to turn on/off all schedules

#### 3

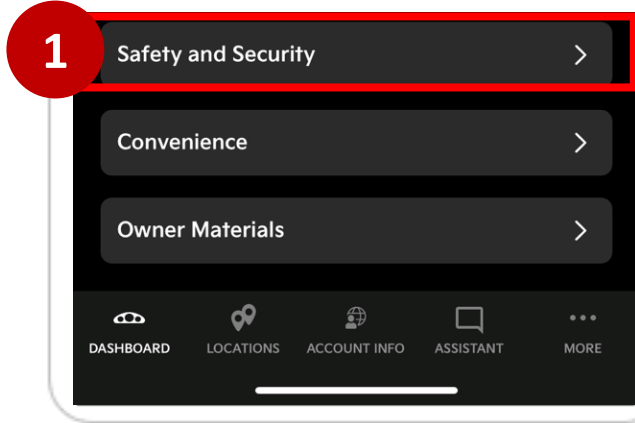

Make and save custom climate selections on settings screen

#### 4

## DASHBOARD > Safety and Security > Speed Alerts

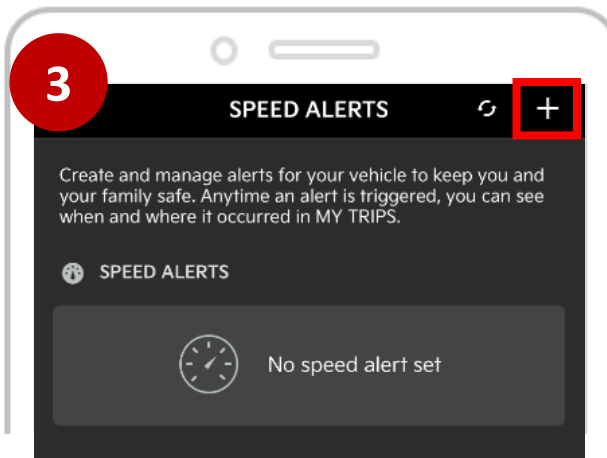

Select Safety and Security

Speed Alerts

Select + to add Speed Alert

Select a speed and save to activate alert

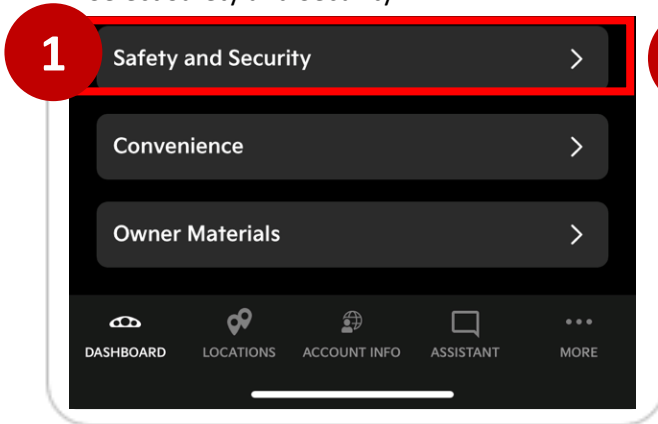

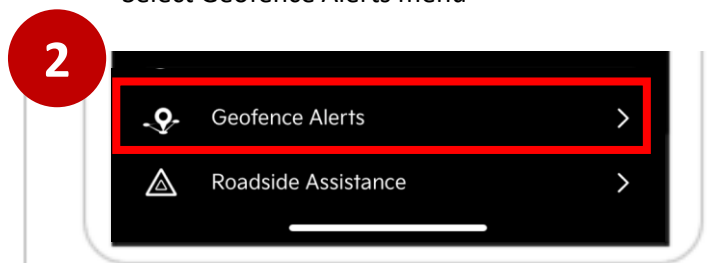

## DASHBOARD > Safety and Security > Geofence Alerts

(Page 1 of 2)

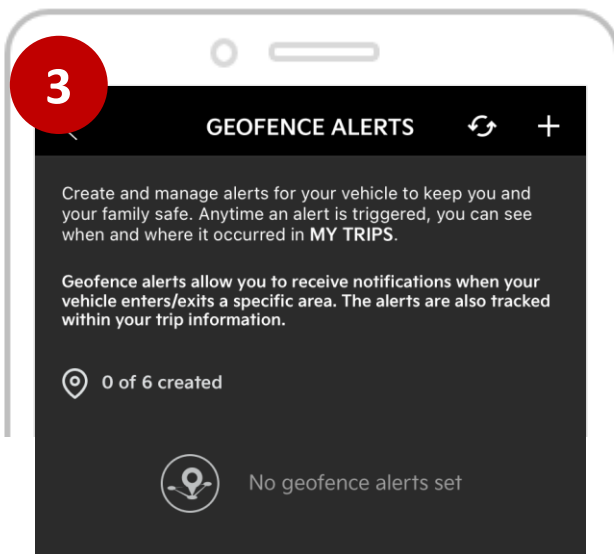

Select Safety and Security

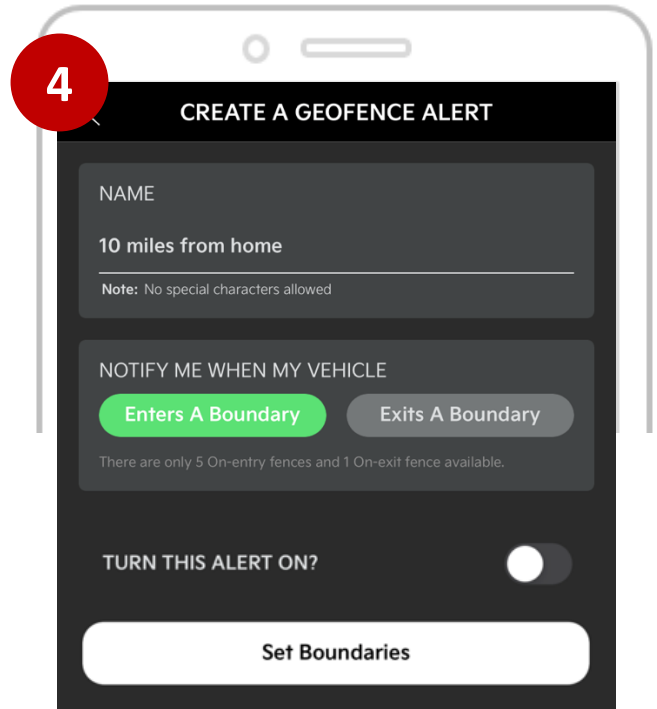

Select Geofence Alerts menu

Select + to add Geofence Alerts

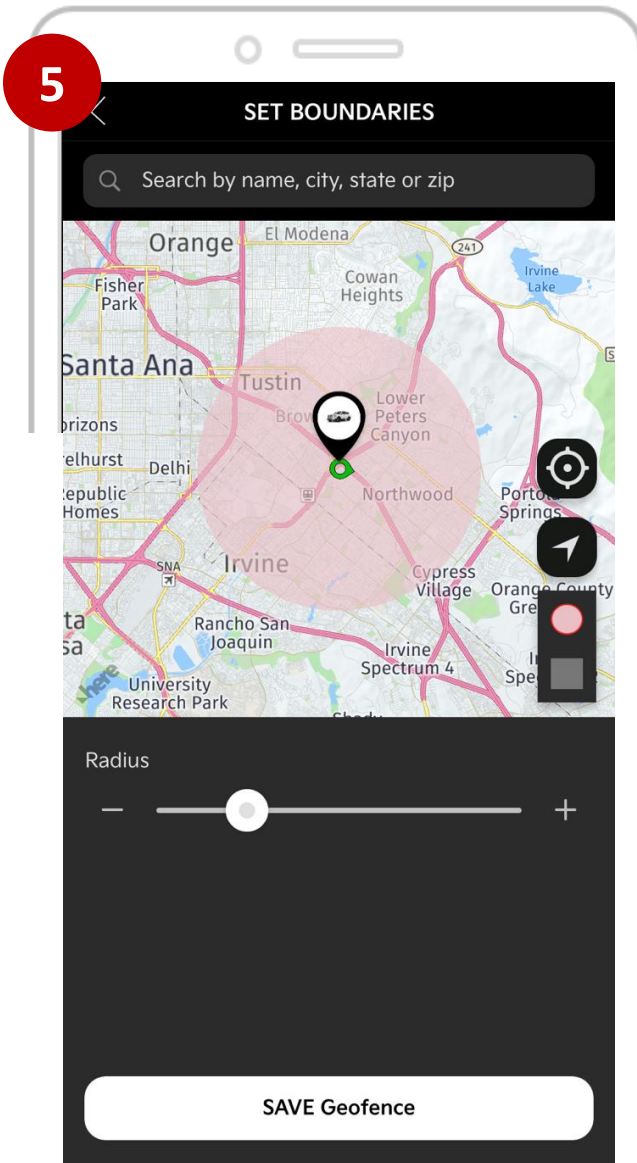

Select preferences and tap Set Boundaries

## DASHBOARD > Safety and Security > Geofence Alerts

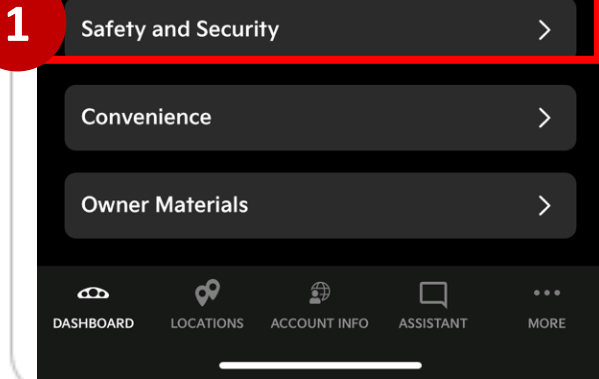

(Page 2 of 2)

Select Radius and tap Save Geofence

## DASHBOARD > Safety and Security > Curfew Alerts

### Safety and Security

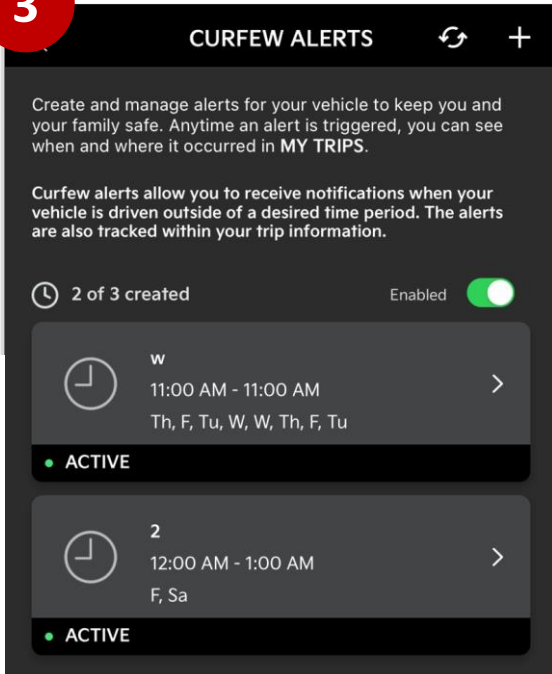

### Curfew Alerts

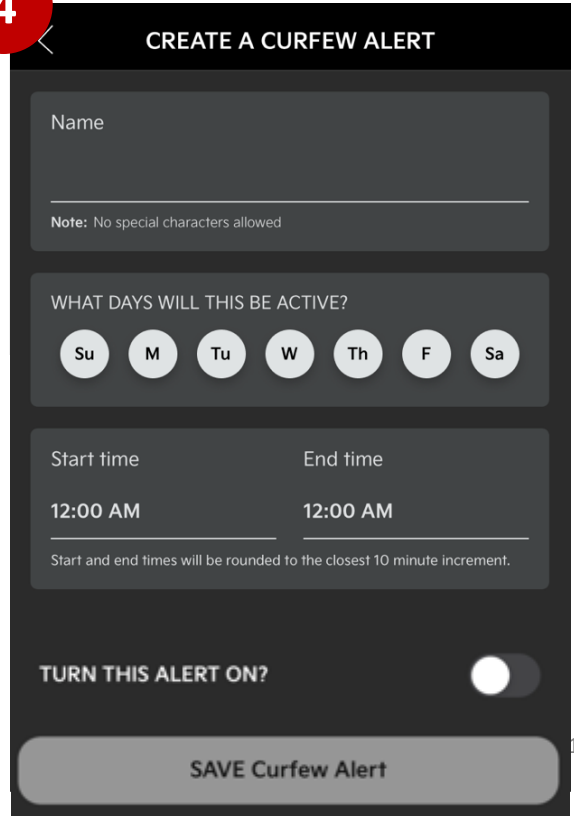

Select **+** to add Curfew Alert

Make selections and toggle alert on, then tap **SAVE Curfew Alert**

3

4

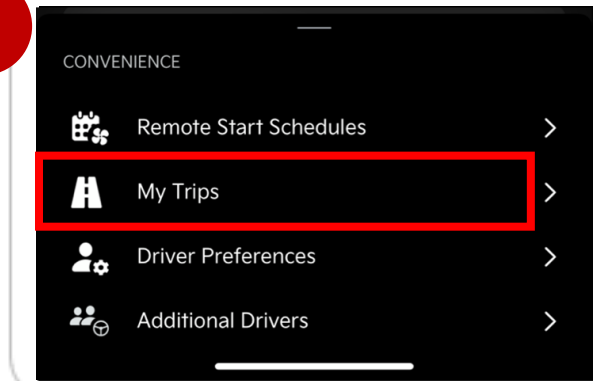

### DASHBOARD > Safety and Security > My Trips

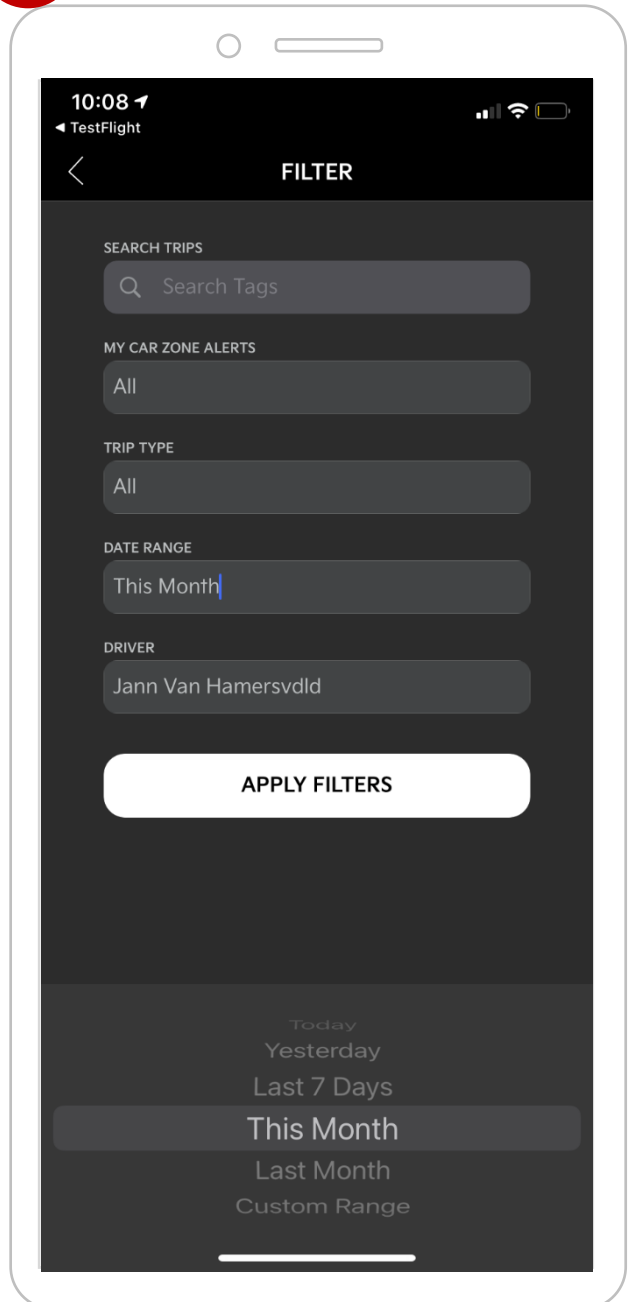

Select Convenience

Select My Trips

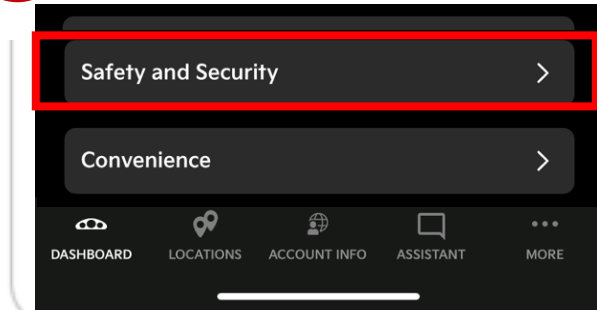

Enter filters and tap APPLY FILTERS to view previous trips

## DASHBOARD > Safety and Security > Stolen Vehicle Recovery

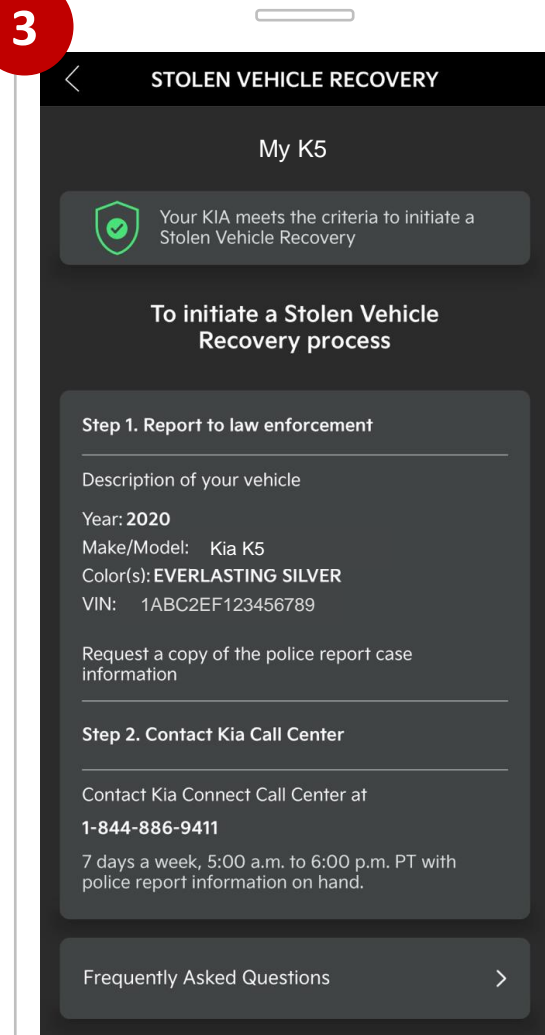

**1** Select Safety and Security

Select Stolen Vehicle Recovery

Read and follow instructions to initiate Stolen Vehicle Recovery

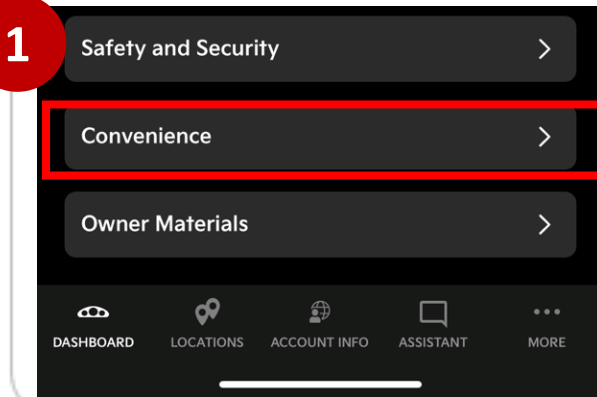

## Set Departure Schedules (for limited EVs only)

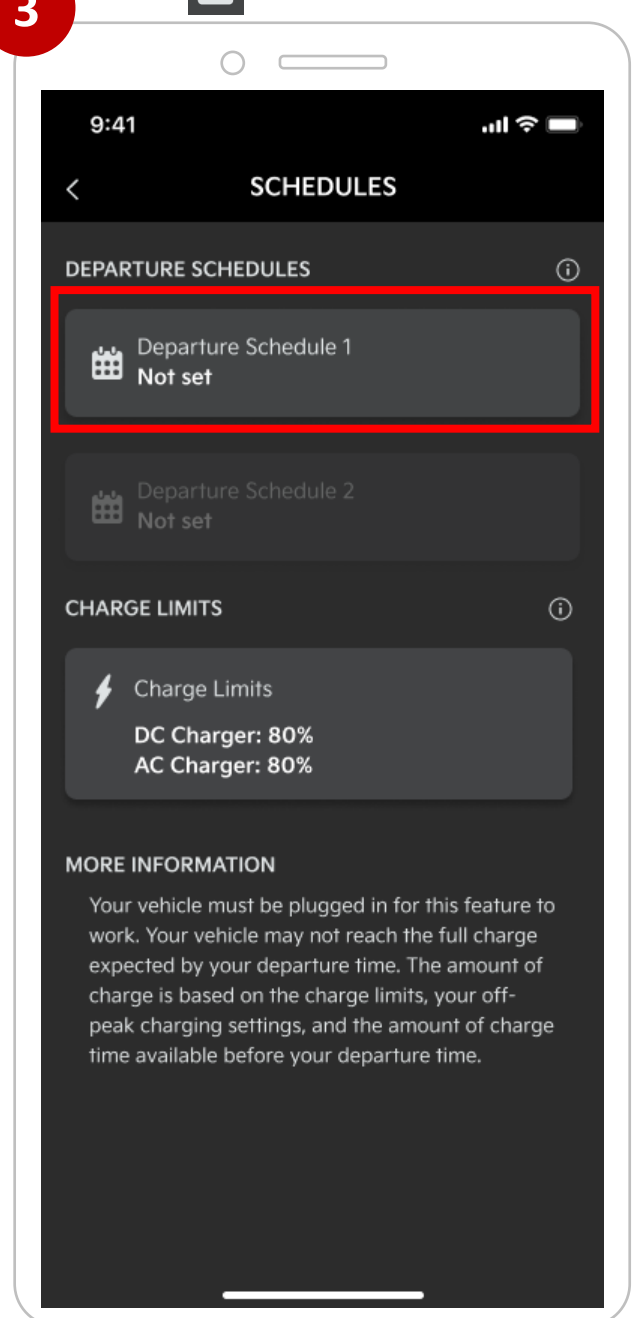

**DASHBOARD** > Convenience > Set Initial Climate Departure Schedule

(Page **1** of **6**)

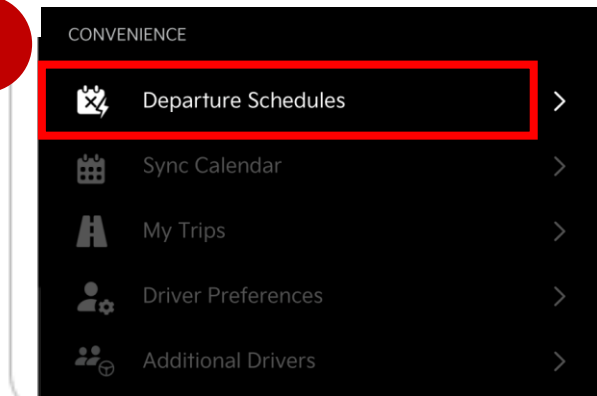

Select Convenience

Select  Departure Schedules tab

Select Departure Schedules

## Set Departure Schedules (for limited EVs only)

**DASHBOARD** > Convenience > Set Initial Climate Departure Schedule

(Page **2** of **6**)

Select Departure Days and Time

Select Next

4

The screenshot shows the 'DEPARTURE TIME' screen. At the top, there is a back arrow and the title 'DEPARTURE TIME'. Below the title, it says 'Select your regular departure time below.' Underneath, there is a section titled 'SCHEDULE SETTINGS' with a 'Required' label. It shows 'Departure Schedule 1' as 'Not set'. Below this is a section titled 'Departure Days' with seven circular buttons labeled S, M, T, W, Th, F, and Su. The 'S' button is highlighted. At the bottom, there is a 'MORE INFORMATION' section with text explaining that the vehicle will start charging based on the selected departure time, desired off peak hours usage, and charge limit. Below the text is a time selection grid with hours 5 through 11 and minutes 30, 40, 50, 00, 10, 20, 30. The '8 00 AM' option is highlighted.

5

The screenshot shows the 'DEPARTURE TIME' screen. At the top, there is a back arrow and the title 'DEPARTURE TIME'. Below the title, it says 'Select your regular departure time below.' Underneath, there is a section titled 'SCHEDULE SETTINGS' with a 'Required' label. It shows 'Departure Schedule 1' as '8:00 AM'. Below this is a section titled 'Departure Days' with seven circular buttons labeled S, M, T, W, Th, F, and Su. The 'S' and 'Su' buttons are highlighted. At the bottom, there is a 'MORE INFORMATION' section with text explaining that the vehicle will start charging based on the selected departure time, desired off peak hours usage, and charge limit. Below the text is a large white button labeled 'Next'.

## Set Departure Schedules (for limited EVs only)

**DASHBOARD** > Convenience > Set Initial Climate Departure Schedule

(Page **3** of **6**)

Select temperature and duration, toggle Defrost on or off, and tap Next

Make Off-Peak charging selections to lower charge cost during scheduled charging times

**6**

The screen is titled "CLIMATE SETTINGS". At the top, there are two circular buttons with a blue checkmark and an orange arrow pointing up. In the center, the temperature "72°" is displayed in blue. Below this, there is a section for "Climate Duration" set to "10 mins", with a note: "Schedule will run up to 20 minutes in 1 minute increment." Below that is a "Defrost" toggle switch, which is currently turned on (green). At the bottom, there is a "MORE INFORMATION" section with text explaining the feature. At the very bottom are two buttons: "Skip" and "Next".

**7**

The screen is titled "OFF-PEAK CHARGING TIME". Below the title is a section "OFF-PEAK HOURS SETTINGS" with a "Required" label. It contains two time selection fields: "Start Time" set to "1:00 AM" and "End Time" set to "12:00 AM". Below these are two radio button options: "Maximize Off-Peak Charging" (selected) and "Only Off-Peak Charging". At the bottom, there is a "MORE INFORMATION" section with text explaining the feature. At the very bottom is a time picker showing "8 00 AM".

## Set Departure Schedules (for limited EVs only)

**DASHBOARD** > Convenience > Set Initial Climate Departure Schedule

(Page **4** of **6**)

Tap NEXT to proceed

**8**

**OFF-PEAK CHARGING TIME**

OFF-PEAK HOURS SETTINGS Required

Start Time  
1:00 AM

End Time  
7:00 AM

☒ Maximize Off-Peak Charging

☐ Only Off-Peak Charging

**MORE INFORMATION**

Off-Peak Charging Time allows you to set the time during which your energy costs are lower.

If you select the "Only Off-Peak Charging" option, your vehicle will only charge during this timeframe.

If you select the "Maximize Off-Peak Charging" option, your vehicle will calculate the best time to start charging to ensure (1) it maximizes the amount of charging done

**Next**

(Some screens simulated)

## Set Departure Schedules (for limited EVs only)

**DASHBOARD** > Convenience > Set Initial Climate Departure Schedule

(Page **5** of **6**)

Tap Save to set schedules and lock in settings

The On indicator will show when Departure Schedule is active

9

**REVIEW SCHEDULE SETTINGS**

To set a charge schedule, you must set and enable a departure time and off-peak charging times.

**DEPARTURE SCHEDULE 1** Required

Departure Time  
8:00 AM

Departure Days  
Sun, Sat

**CLIMATE** Optional

Climate Settings  
72°, Defroster On, Accessories Off **On**

**OFF-PEAK CHARGING** Required

Off-peak hours are only used when a departure schedule is turned on.

Off-Peak Charging Time  
Start: 1:00 AM Stop: 7:00 AM  
Charging: Maximize Off-Peak Charging

**Save**

10

**SCHEDULES**

Updated: Today at 09:41 AM

**DEPARTURE SCHEDULES**

Departure Schedule 1 **On**  
8:00 AM Sun, Sat  
Climate Settings  
72°, Defroster On, Accessories Off

Departure Schedule 2  
Not set

**OFF-PEAK CHARGING**

Off-peak hours are only used when a departure schedule is turned on.

Off-Peak Charging Time  
Start: 1:00 AM Stop: 7:00 AM  
Charging: Maximize Off-Peak Charging

**CHARGE LIMITS**

Charge Limits  
DC Charger: 80%  
AC Charger: 80%

## Edit Departure Schedule

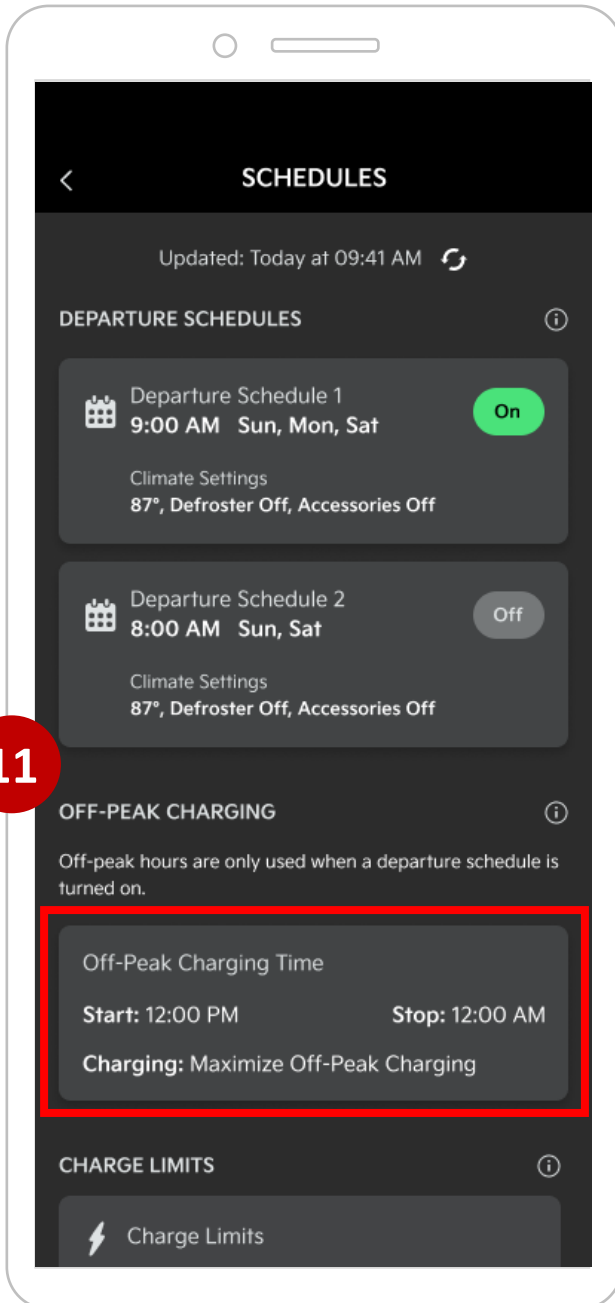

**DASHBOARD** > Set Off-Peak Charge Timing (optional)

(Page **6** of **6**)

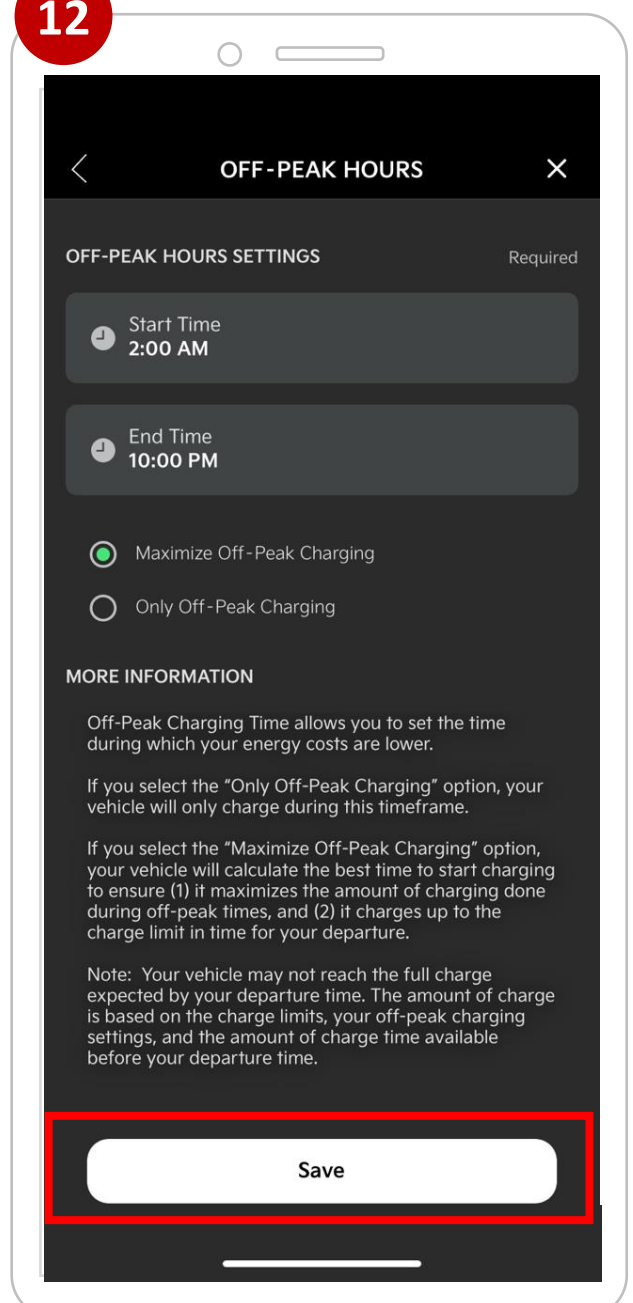

Select Off-Peak Charging Time

Select desired times and option for Off-Peak charge, then tap the “Save” button

**11**

## Kia Connect Feature Glossary

(Note: Not all Kia Connect features are listed below)

Feature Name	Description
Trip Info	Access your vehicle's driving data-speed, distance, and location.
Vehicle Health Report	Get monthly diagnostic reports on your vehicle's health, tips and available coupons.
Roadside Assistance	Automatically provide vehicle location for Roadside Assistance during an emergency, 24/7.
Climate Scheduling	Set your vehicle's cabin climate to your preference online or from the app.
911 Connect	If vehicle airbag deploys, Kia Connect system automatically attempts to call 911 and send vehicle location to emergency agents.
Maintenance Reminder	Get reminders about your Kia's regularly scheduled maintenance.
Find My Car	Find and get directions to your vehicle's location.
Stolen Vehicle Recovery	Uses Kia Connect technology and trained Kia agents to assist law enforcement with vehicle recovery.
Stolen Vehicle Immobilization	Allows shut down of stolen vehicle's engine.
Geofence Alert	Get vehicle geofence alerts based on your preset preference.
Curfew Alert	Get vehicle curfew alerts based on your preset preference.
Speed Alert	Get vehicle speed alerts based on your preset preference.
Diagnostic Alerts	Receive diagnostic notifications if a warning indicator is triggered.
Valet Alert	Receive an alert if your vehicle is driven beyond your pre-set limit.
Low Starter Battery Alert (12V)	Get an alert if your starter battery is too low.
Vehicle Alarm Notification	Receive a notification whenever your vehicle alarm goes off.
Panic Button Notification	Get notified if panic button is triggered.
Rear Seat Occupancy Notification	Be alerted if rear seat passengers are detected once doors are locked.
Remote Mileage Check	Get mileage reading online or from the app.
Remote Lock & Unlock	Remotely lock or unlock your vehicle online or from the app.
Remote Horn & Lights	Trigger your horn and lights remotely to find your car or for safety purposes.
Remote Start & Stop	Start or stop your vehicle online or from the app.
Remote Start with Climate Control	Set your vehicle's cabin temperature remotely online or from the app.
Remote Heated Seats	Warm your seats remotely online or from the app on a cold day.
Remote Ventilated Seats	Ventilate your seats remotely online or from the app on a warm day.
Kia Skill (Amazon Alexa)	Perform commands comfortably from home with your voice.
Remote Charge & Stop Charge	Remotely start or stop charging your vehicle online or from the app.
Charging Status Notification	Receive the latest charge status for your vehicle.
Charge Scheduling	Set your vehicle's Charging Schedule preference online or from the App.
Send Destination to Car	Send search destination results directly to your vehicle's navigation online or from the app.
Kia Connect Voice Assist	Kia Connect Voice Assist allows your vehicle to search online for your POIs instead of using the in-vehicle's offline search, providing you with better search results.
Connected Routing	This new feature provides efficiency, accuracy, and timeliness by providing better routing, higher arrival time accuracy and real-time traffic data.
Connected Weather	Provides weather for more than 25,000 cities.
Over the Air Infotainment and Navigation Updates	Updates the infotainment system and navigation maps over the air.

## Kia Connect Feature Glossary

(Note: Not all Kia Connect features are listed below)

Feature Name	Description
Kia Digital Key 2 Touch	Access and start your Kia using your smartphone or smart watch. Remotely share your digital key capabilities with family and friends.
Surround View Monitor	Capture a 360-view image right from your vehicle. View images in the Kia Access app and Kia Owner's portal.
Wi-Fi Hotspot	Makes vehicle a Wi-Fi hotspot to enjoy online movies, games, social media, and more for up to five devices at once.
Last Mile Navigation	Continues navigation to the final destination after the vehicle is parked.
Connected User Profiles	Sync your vehicle profile and share selected settings with other compatible vehicles. Also, view and change applicable vehicle settings from your Kia Access app.
Usage-Based Insurance	Provides access to savings opportunities from participating insurance companies that offer competitive rates for a qualifying Driving Score.
Remote Heated Accessories (Side and rear window; steering wheel)	Remotely heats the steering wheel, and side and rear windows.
Speed / Red Light Cam Alerts	Alerts drivers of speed and redlight cameras.
Calendar	Links the owner's Google or iCloud calendar so that it is viewable in Kia's Infotainment system.
